The four Space Overlords are:

A fire giant with the ability to send out fireballs, Kebak'Aras is incredibly skilled in close quarters combat, robust, violent, and has a variety of physical attacks to crush any resistance.

A water type overlord, Terbang is equipped with gravity emitters that allow her to float. While the fastest overlord, her attacks are not as strong as her brothers. She uses projectiles to attack and is able to charge her attack to create a massive power attack.
